

USP Bore Paste™ **The Original Formula™**

High-tech, patented formula includes the precious Earth mineral -- Garnet -- a mild, natural abrasive that is softer than steel so it cannot scratch the bore; yet harder than foulings so it removes them with ease.

- Tested and proven over 50 years to improve accuracy and prolong the bore life of all types of firearms
- Safer and more effective than toxic solvent baths; requires no rubber gloves while cleaning
- 15-to-30-minute cleaning procedure is much quicker than solvents, which can take up to 24 hours
- Packaged in tubes rather than jars which extend shelf life by preventing puddling and drying out
- Tubes also eliminate the mess of digging paste out of a jar with your fingers.
- Combo pack features a 2 oz tube of Bore Paste and a 1 oz bottle of Gun Cleaning Oil

**Cleaner Bores,
Meaner Scores!™**
